

**Logic, Algebraic system, Language and Related Areas
in Computer Science
RIMS, 2022**

February 16-18 , 2022
The Kyoto University Research Institute for Mathematical Science
Kyoto University

Invited Speakers

Benjamin Fine

Fairfield University, Department of Mathematics and Computer Science,
USA

"The Elementary and Universal Theory of Free Group Rings"
February 16 (Wednesday) 10:00 – 10:50 (Japan time)

Emanuele Rodaro

Politecnico di Milano, Department of Mathematics,
Italy

"On the presentation of semigroups defined by Mealy machines"
February 17 (Thursday) 16:10 – 17:00 (Japan time)

Robert Jajcay

Comenius University, Faculty of Mathematics, Physics and Informatics,
Slovakia

"Computer aided constructions of cages"
February 18 (Friday) 15:20 – 16:10
