

Application deadline has passed!

Call for Lecture/Participation to our RIMS Workshop in Kyoto Japan

Dear colleagues,

I am Tsunekazu Nishinaka from University of Hyogo, Japan.

A Kyoto University Research Institute for Mathematical Science (RIMS) workshop " Group, Ring, Language and Related Areas in Computer Science " will be held as follows:

Group, Ring, Language and Related Areas in Computer Science

Location : Room 111

Period: 2023-02-15–2023-02-17

Organizer: NISHINAKA Tsunekazu

(School of Economics and Management, University of Hyogo)

As for the research area, we regard it as computer science in a broad sense, We are looking for a wide range of related lectures. Even though it is in the idea stage. We would like to make active research presentation and discussion by many researchers. Please send the application form to the organizer by e-mail By Friday, December 9th 2022 in case you intend to talk at this workshop.

To (until 12/09/2022) Tsunekazu Nishinaka: t-nishinaka@nifty.com

————— Application form —————

Name:

Affiliation/Position:

Postal address :

E-mail address:

Select either (1) Participation only or (2) Participation and talk

In case of (2),

Title of talk:

Presentation time (standard time is 30 min.):

Thanks in advance.

With best regards

Tsunekazu Nishinaka

An additional announcement on the RIMS Workshop:
It will be held in person (on site).

Dear all,

Just in case, I would like to make the following additional announcements about holding the RIMS workshop which has been announced earlier.

- We are going to hold the RIMS workshop “Group, Ring, Language and Related Areas in Computer Science” in person this time (we held the workshop online twice in the past, though).

- However, the workshop might be changed to an online meeting when we have serious change in the situation.

If there are any changes, I'll let you know soon.

If you have any question, feel free to ask.

Best wishes,

Kazu Nishinaka
